Learn from a Pro

Michael became involved in giving training workshops several years ago after hosting lectures in photography and finding he had a knack for explaining the subject in an highly understandable and entertaining way.

Since then he has become very passionate about his Training Series and is keen to show you professional but achievable photography techniques in the simplest way possible.

today!**

- **9.00AM to 10.30AM Tutorial Session**
In a fun and easily understandable session you will learn about “How Cameras Work”, “Aperture & Shutter Speeds”, “Exposure Control”, and “Depth of Field”.
- **10.30AM to 10.45AM Coffee Break**
Complimentary Coffee and Tea will be provided.
- **10.45AM to 12.30PM Practice Session**
Together with Michael you will practice to apply your newly acquired knowledge to various photographic situations.
- **12.30PM to 1.30PM Lunch Break**
Lunch and soft drinks will be provided and are included in the course fee.
- **1.30PM to 2.30PM Tutorial Session**
In the second part of the tutorial sessions you will learn about the composition rules that apply in “Landscape & Portrait Photography” and how different lenses and focal lengths can enhance your creativity.
- **2.30PM to 4.00PM Practice Session**
Putting it all together.
By now you will be able to use your camera in manual mode and unleash your full creative power. Michael will guide you through the first steps of applying the full range of your new skills to bring your photography to the next level.
- **4.00PM to 5.00PM Review of photos**
Together with Michael you will review your photos and get some final tips and suggestions.

Learn about composition

When you know what the rules are, you can break them.

Get to the next level

Portraits made easy with available light.

By just applying some basic photography composition techniques your photographs will leap from the ordinary to simply outstanding!

When you put all the building blocks together and with some practice, your photography will blossom and your skills will quickly move onwards and upwards to the next level.
